About Me

I'm someone who enjoys learning and putting in hard work. I graduated from Kerala University in 2023 with a degree in Computer Applications. I'm an enthusiastic and self-motivated software engineer passionate about programming and always eager to expand my skills. I'm currently seeking a good opportunity to further my career.

Skills

- HTML
- CSS
- JAVASCRIPT
- NODE
- SQL
- MONGODB
- REST API
- BOOTSRAP

Language

- English
- Malayalam

Education

Bachelor of Computer Application [BCA]

2020-2023

kerala University

I completed my graduation in Computer Application from Kerala University in the year 2023. I am now looking to enhance my skills in full-stack development. Additionally, I am interested in pursuing advanced courses to stay updated with the latest technologies.

Fullstack Development Course

2024

stackup

I completed a full-stack development course at StackUp. I work with HTML, CSS, JavaScript, Node.js, Bootstrap, MongoDB, and SQL. I created a frontend project and a backend in Node.js for an employee management system. During the course, I developed skills in creating dynamic web applications and handling databases effectively. I also learned to implement responsive design principles to ensure the application works well on various devices.

Experience

Software Engineer Intern

2024

Stackup

I currently work as a Software Engineer Intern at Stackup. This experience is providing me with valuable industry exposure and practical skills.

Projects

Responsive website

HTML,CSS,JAVASCRIPT

I am working on creating a responsive website using HTML, CSS, and JavaScript. The website is designed to function seamlessly on tablet, mobile, and laptop views.

Poerfolio

HTML,CSS,JAVASCRIPT

I have created more than three responsive portfolio websites using HTML, CSS, and JavaScript. Each project showcases my design and coding skills. I am continually improving my techniques to create even better user experiences.

Backend project (Employee Management System)

HTML, CSS, JS, MONGODB, NODE, EXPRESS

I developed an employee management system using HTML, CSS, JavaScript, Node, Express, and MongoDB. It supports CRUD operations and pagination. This project enhances efficiency in managing employee data.
